TIP OF THE DAY

Most Indonesian public transportations are not on time, they are: buses, trains, and domestics flights. The buses and trains are late due to heavy traffic. Most buses have to go until they are full before leaving. Trains are late, since there is only a limited number of railways, therefore trains must take turns using them.

Understand a Time Schedule

Exercise 1 (Pair Work)

In the following conversation, Dini is inquiring about a flight's schedule from Sinta, a customer service associate at the information center of Garuda Indonesian Airlines. Your instructor will model the conversation for you. Then, practice the conversation with your partner and switch roles. Continue with the corresponding exercise 2.

Sinta:	Garuda Indonesia, selamat siang! Ada yang bisa dibantu?
Dini:	Maaf, Mbak. Saya mau bertanya, penerbangan GA 456 berangkat pukul berapa, ya?
Sinta:	Sebentar, ya. Saya lihat dulu di jadwal. GA 456 berangkat pukul 7.30.

TIP OF THE DAY

When for some reason a ticket is not used, but it cannot be returned or exchanged for money either, the expression for that ticket is "*hangus*"; which literally means "burned". When you have a ticket on hand, it is important to find out about the cancellation or return policy so that your ticket does not become "*hangus*" if you have to cancel your trip.

Exercise 8 (Pair Work)

In the following conversation, Dina tries to cancel her resrevation. Is she successful in her effort? Read the conversation, and then practice it with your partner. Switch roles.

TIP OF THE DAY

There are many types of buses in Indonesia, they are: small buses, big buses, AC buses, and non-AC buses. An AC bus is usually more expensive than a non-AC or regular bus, and it is more convenient. Indonesia doesn't have a subway yet, at least until 2020 when the first subway will serve Jakarta - Bogor - Tangerang - Bekasi (Jabotabek) business districts. In buses, often times there are more people than seats available, so people have to stand in those buses. During this situation, be careful of pickpockets who usually work in groups to steal your wallet.

Use Taxi and/or a City Bus

Exercise 10 (Pair Work)

You are going to another city using the public bus, but you do not know which bus goes there. Pretend that your partner is Indonesian, and you are asking him/her questions about how to use the public bus. Look at the example of the conversation below. Switch roles once you are done with the activity.

Anton: Maaf, bisa saya bertanya? Bis jurusan ke Bandung yang mana?
Dono: Wah, tidak ada.
Anton: Aduh, lalu kalau saya mau ke Bandung bagaimana?
Dono: Pertama dari sini Anda naik bis jurusan Cibubur kemudian turun di terminal bis Cibubur. Dari Cibubur, Anda naik bis jurusan Bandung. Kalau tidak salah bis jurusan Bandung namanya Parahyangan.
Anton: Hmm, bis jurusan ke Cibubur yang mana?
Dono: Itu di sebelah kanan pintu keluar. Bis yang berwarna merah. Namanya bis SATRIA.
Anton: Berapa ongkos ke Cibubur?
Dono: Rp. 2.500,00.
Anton: Terima kasih.
Dono: Sama sama. Selamat jalan!

Exercise 16 (Pair Work)

Read the following passage, and then answer the questions. Discuss your answers with your partner.

kemacetan di Manado

Transportasi darat di Indonesia mempunyai masalah yang cukup berat. Karena kurangnya dana, pemerintah tidak mampu untuk membangun jalan baru dan fasilitas transportasi lainnya seperti rel kereta api atau jalan bebas hambatan. Akibatnya jumlah jalan yang ada tidak mampu menampung jumlah kendaraan yang terlalu banyak dan kemacetan tidak bisa dihindari.

Transportasi air juga mengalami masalah yang serius yaitu masalah keamanan. Banyak kapal atau perahu tidak memenuhi standar keselamatan seperti menyediakan pelampung, atau perahu cadangan (sekoci). Kapal-kapal dan perahu-perahu sering beroperasi dengan jumlah penumpang yang melebihi muatan. Contohnya, sebuah perahu hanya mampu menampung 55 orang, 100 orang dibiarkan masuk ke dalam perahu untuk mendapatkan uang lebih banyak. Karena itu, sering terjadi kecelakaan di laut karena perahu kelebihan muatan.

Transportasi udara di Indonesia, akhir-akhir ini mengalami perkembangan. Semakin banyak perusahaan penerbangan yang membuka bisnis di Indonesia. Harga tiket untuk pesawat terbang semakin murah dan semakin banyak orang menggunakan transportasi udara daripada beberapa tahun lalu.

Questions:

1. What can you conclude from each paragraph?

_____

When your partner is telling his story, ask for additional information and explanation. Write down your partner's story and be prepared to share it with the rest of the class.
Use the conjunction "*ketika*" or "*waktu*" to show that the events happened in the past. Observe the following examples and find out how they are used by comparing the first two sentences with the rest of the examples.

Waktu kamu di Inggris, apa kamu sempat pergi ke Skotlandia?

Contrast: Kapan vs Kalau, ketika & waktu

Because "kapan" is used to ask about the time of an event, some English speakers have a tendency to generalize its meaning as equal to "when" in English. This is not entirely true. "Kapan" is a question word, while "when" is used as a question word and a conjunction that has a time orientation. In contrast, Indonesians use "*kalau*", "*ketika*" and "*waktu*" for time-oriented conjunctions.

Question Word: kapan

Indonesian: kapan	**English: when as a question word**
Kapan Bapak ditempatkan di Aceh?	When were you stationed in Aceh?
Kapan Ibu akan ditugaskan di Papua?	When is the summer?

Conjunction: kalau, ketika/waktu

"Kalau" can be used to talk about future events, while "ketika" and "waktu" are used to talk about past events.

Indonesian: kalau, ketika/waktu	**English: when as a conjunction**
Kamu jangan menangis kalau saya pergi, ya?	Don't you cry when I am gone, OK?
Saya bertemu dia waktu mengunjungi Amerika.	I met her when I was visiting the US.
Ketika sampai di Flores, kami beristirahat untuk beberapa hari.	When we arrive in Flores, we took a rest for a couple of days.

Do not forget that "*kalau*" can also means "if". Observe the difference of its meanings in the following examples.

Bagaimana kalau saya berangkat sekarang?	What if I leave now?
Kalau kita sampai di Yogya nanti, kita akan makan ayam goreng.	When we arrive in Yogya, we are going to eat fried chicken.

Tourist Destinations

During Lebaran Day, many tourist destinations in Indonesia are packed with domestic tourists. Many tourist spots such as zoos, amusement parks, etc., hold special events to celebrate Lebaran, such as: music concerts (mostly Dangdut – a very famous style of music with singers), a circus, etc.

It is very hard to find tickets during this period. The same problem happens during New Year's, although it is not as crowded as it is during Lebaran Day.

The following are some famous tourist spots in Indonesia are Pantai Kuta in Bali, Pantai Senggigi in Lombok, Dunia Fantasi Ancol in Jakarta, Malioboro in Yogyakarta, Gunung Bromo in East Java, Taman Safari in Jakarta, Taman Mini Indonesia Indah in Jakarta, Puncak in Bandung, and Bintan resorts in Bintan Island, Bunaken coastal areas in Sulawesi, and Toba Lake in Sumatra.

Below are some pictures of tourist destination in Indonesia.

Activity 3

Read the following passage, and then answer the questions.

"Subway", "Busway", "Waterway",... "No Way"?

Belum reda kontroversi tentang busway, warga Jakarta kembali diberi alternatif transportasi massal berupa monorail dan bahkan angkutan alternatif lewat sungai (waterway) yang diharapkan bisa menjadi bagian solusi kemacetan.

Soal kemacetan di Jakarta memang tidak ada habisnya. Beberapa studi tentang transportasi Jakarta memperlihatkan terjadinya penurunan kecepatan rata-rata kendaraan pada koridor utama dari 20-30 km/jam pada tahun 1995 menjadi 5-15 km/jam pada tahun 2002.

Untuk menangani kemacetan di jalan-jalan utama Jakarta, Pemerintah Propinsi DKI telah memprioritaskan penanganan 12 koridor. Dua yang menjadi prioritas adalah Timur-Barat (Pulo Gadung-Grogol) dan Utara-Selatan (Fatmawati-Kota). Dalam penanganan koridor utama Utara-Selatan, direncanakan proyek mass rapid transit (MRT) berbasis rel yang dikenal dengan subway. Rencana awalnya, dari arah Fatmawati hingga Senayan (golf course) akan merupakan struktur layang (elevated rail), sedangkan dari Senayan ke Monas akan berupa struktur di bawah tanah (underground).

Total project cost sekitar 1,2 miliar dollar AS untuk track sepanjang 12,4 km. Dengan modifikasi struktur konstruksi dan penggunaan beberapa fasilitas PT KAI, biaya dapat diturunkan hingga sekitar 500 juta dollar AS. Usulan baru ini masih punya masalah dana sehingga belum ada kepastian pelaksanaannya.
