

PREFACE

All single words introduced in the Vocabulary sections of the language-instruction modules are listed alphabetically in this glossary. Phrases from the Vocabulary sections of the modules are listed here alphabetically according to the first word of each phrase. In addition, some phrases are entered a second and third time elsewhere in the glossary, grouped with other phrases which share a common verb or another significant word.

In this glossary, asterisks precede words and phrases which were introduced as Additional Vocabulary in the modules. These vocabulary items are included here because of their usefulness but are not used in Headstart Program drills and tests.

The numbers in the right-hand column of each glossary page indicate the modules in which glossary entries are used.

Japanese family names and place names not included in module Vocabulary sections but used in Drills and Dialogues are listed in the Japanese-English section of the glossary.

Japanese nouns listed can be either singular or plural.
