Preface

A few and simple language instructions in Madi for Peace Corps Volunteers who will work in the areas where Madi is spoken; to enable them to meet and communicate with all Ugandans in and around the areas to which they are posted.

It has been the responsibility of Mr. Frederick K. Kamoga of Makerere University, Kampala assisted by Messrs Severiono Uudiga and Delfino Cau Mulago, the Madi speakers. Typing has been done by Mr. Joseph Muwanga.

This work has been undertaken at the request of Messrs James Senkubuge and Stephen Newman; Director and Technical Coordinator for Peace Corps Training programme 1971, in which this text has been used for the first time.

It has been work done two weeks before the language programme.

HINTS TO THE STUDENT

i. Watch very carefully the way the Madi speakers open their mouths, play with their toungues, throw out the words, shake parts of their bodies; as in some tribes shaking a part of the body can mean something.

ii. Try to repeat all that you hear from the Madi speakers, so that you get used to the intonation of the language although, sometimes, you may be still unable to understand the meanings of the words you hear.

iii. Try to learn vocabulary which is very important in learning languages; as by it you will be able to express yourself regardless of grammar.

iv. Try to use all that you learn by talking to Madi speakers.

v. Try to keep your voice level, when speaking, until you can speak with the native intonation.

vi. Try to notice how much smiling there is in the language, how much stammering, how much humoring etc.
